

ONE DAY TRAINING REPORT

On 14 of June 2019, at the meeting room of the museum “Museo diocesano e del Codex”, took place the one-day training meeting with all the teachers of the school “Secondo Comprensivo di Rossano – Carlo Levi”, including the teachers involved in the project, the Headmaster, members of the Ass. Insieme per Camminare and the operators of the museum

First of all, we introduced contents and purpose of the project, the aims of the Erasmus+ program and what Europe Commission expects from the partners.

Teachers involved in the project exposed the results of observations taken during the two visits in Slovenia and Greece. They debated with their colleagues about what it worked with students, during the visits in the museums, and what can be done to improve students engaging.

Teachers involved in the one-day training meeting, were then divided in groups. Each group received a record with several informations about one artwork present in the museum. They participate to a guided visit of the museum and operators explained all the contents about the artworks, right in front of them.

After a short brainstorming teachers started to attribute the artworks to historical and artistic periods, locate them into the school programs, into the right school training year, then they planned an interdisciplinary lesson. All the lesson planning included a workshop with a sort of product to make on. All groups shared their works and we all debated about.

Last, teachers involved in the project, exposed their lesson plans as created in order to respect the format template of the project.
