

## ***INTEGRATION OF MUSEUMS INTO SCHOOL EDUCATION***

### ***REPORT AFTER ONE DAY SEMINAR***

On 13<sup>th</sup> of September there was a one day seminar for art teachers.

On 17<sup>th</sup> of September there was a one day seminar for history teachers.

On 23<sup>th</sup> of September there was a one day seminar for art teachers.

We invited 5 art teachers from primary schools, 5 geography teachers also from primary schools and 5 teachers from secondary schools. During one day seminar we share the information about our project *INTEGRATION OF MUSEUMS INTO SCHOOL EDUCATION*. We started from basic information about our project, about our meetings in Novo Mesto in Slovenia and Piraeus in Greece.

Next, we presented our interdisciplinary lessons plans in outdoor/indoor environments. I have explained step by step all lessons plans and then I have asked teachers for feedback about them; how do they like the theme, how do they find the interdisciplinary context, is it enough interesting for students, is it well prepared about the security and other questions or problems they can see in this plans.

There was very interesting discussion. All teachers found our project very interesting. Great idea to take museums into education. Lesson plans well done, with good themes. Good constructions and task order. The most they like the interdisciplinary combining tasks. In their opinions the **INTEGRATION OF MUSEUMS INTO SCHOOL EDUCATION** project is very good and needed in everyday education. Its great opportunity to create interesting activities, bringing art closer to the youngest students, older and even to whole families.
